🏠 160 Vroom Street, Jersey City

## Work Experience

### Nlmatix

#### NLP Engineer

New York, NY — October 2019 - April 2021

- \* Improved text indexing from PDF documents to enhance search retrieval quality
- \* Designed back-end APIs with Python and Swagger.
- \* Built out front-end features in React and ANT design.
- \* Lead on-prem installation for clients and deploying on restrictive environments.
- \* Maintained and debugged CI/CD pipelines, with Docker and Kubernetes.

### Dell EMC

#### Software Intern

Charlotte, NC — May 2017 — August 2017

- \* Optimized memory usage for enterprise data pipelining software by modeling a regression on real-time memory consumption data using Apache Spark.

## Certificates

### Natural Language Processing with Deep Learning

## Technical Skills

**Programming** Python, React, Docker, Kubernetes

**Cloud** GCP, Azure

**Markup**  $\LaTeX$ , HTML, CSS
